At the RSPB we are happy to help provide free farmland advice and support to help encourage and protect wildlife on farms. We can help support farmers with applications into stewardship or one-off habitat management grants. We have a special interest in breeding Wading Birds including Curlew, Lapwing Oystercatcher, Redshank and Snipe, we have an annual survey taking place on around 70 farms in Bowland undertaken by Volunteers. This data is hugely important to farmers trying to access new stewardship schemes whilst helping us to provide advice tailored specifically to each farm.

The Farming in Protected Landscapes programme runs until March 2025. It can help fund projects that support nature recovery, mitigate the impacts of climate change, provide opportunities for people to discover, enjoy and understand the landscape and cultural heritage, or support nature-friendly, sustainable farm businesses. This is a programme of funding for one-off projects covering these areas of work, not an agri-environment scheme. If you are interested and would like to arrange a discussion then please register your interest on the link below, where more detailed information can be found [Farming in Protected Landscapes in the Forest of Bowland | Forest of Bowland AONB](#)
